

summer bunting

Materials:

Fabric scraps
7/8" single fold bias tape
Ribbon
Template

Directions:

1. Print and cut out your template (circles have 5 1/2" diameter).
2. Trace template onto wrong side of fabric. Cut out the number of circles you will need, depending on the length of your bunting (make sure to place template on the fold of the fabric where specified). I used pinking shears, but this isn't necessary.
3. Open your half circles, fold in half (wrong sides together), and iron flat.
4. Sew along the half circle.
5. Take your flat bias tape and iron in half. Next, place your half circles in between the fold and pin in place.
6. Sew one seam along your bias tape, holding your circles in place.
7. Hang and enjoy!
